ARM deployment What-if

```
PS C:\ARM> $Parameters = @{
>>     ResourcegroupName    = "ARMTesting"
>>     Templatefile         = ".\azuredeploy.json"
>>     StorageAccountPrefix = "arm"
>>     Mode                 = 'Incremental'
>> }
PS C:\ARM> New-AzResourceGroupDeployment @Parameters -WhatIf
```

May 21, 2020 - #DuPSUG

PSConf Europe

About psconf.eu

PowerShell Conference EU is Europe's largest annual PowerShell conference. Due to Corona, we postponed the conference to June 1-4, 2021 and work on a free virtual replacement event for this year.

Watch Sessions

We'll make them freely available to everyone starting the weekend *May 30-31* so you have all the time to watch sessions and play with the techniques presented.

Join Discussions And Meet Speakers

On *June 2 and 3*, 5-9pm CEST, we then have a *virtual conference* with group sessions where you can meet your favorite speakers live for discussions and Q&A. The agenda will be published here once we have the details.
